

### **1. Tapped Documentary in its Entirety: The Role Of The Bottled Water Industry And Its Effects On Our Health**

“Documentary that examines the role of the bottled water industry and its effects on our health, climate change, pollution, and our reliance on oil. The documentary is well structured and presents an overwhelming amount of evidence which will change the way anyone thinks about bottled and municipal water”

### **2. Geography Club Resources <http://www.ncge.org/resources>**

From Kim Schultz, Bismarck, State Geography Bee chairman

### **3. Population Education**

All Population Education materials are classroom-tested, evaluated and frequently updated. They are well-suited for a cooperative learning environment and classroom-ready. All materials are matched to national and state standards and frameworks. <https://www.populationeducation.org/>

### **4. Google Street View for Mt. Everest & Vicinity**

“Google’s nearly ubiquitous Street View service is slowly conquering what little of the world it's got left to conquer. In a joint effort with Sherpa mountaineer Apa Sherpa, the Google Maps team captured imagery of the Khumbu region of Nepal, where Mount Everest is located.”
